Volume 63, Number 1, January-February, 1994

REVIEWS

Physiological and Physicochemical Mechanisms of Bacterial Resistance to Freezing and Drying - V. Ya. Volkov 1 5

EXPERIMENTAL

Biological Function of Trisporic Acids in Mucoraceous Fungi - E. P. Feofilova, V. M. Tereshina, and L. A. Vakulova 8 17

ATPase of the Plasma Membrane of the Yeast *Yarrowia lipolytica* is Not Involved in Citrate Excretion - T. V. Kulakovskaya, R. N. Matyashova, V. V. Petrov, and E. V. Kuranova 12 23

Transformation of Phosphates by Free-Living and Symbiotic Root-Nodule Bacteria *Rhizobium meliloti* Followed by ^{31}P NMR Spectroscopy - B. P. Nikolaev, N. A. Provorov, B. V. Simarov, and A. M. Shlyakov 16 29

Effect of *Bacillus intermedius* RNase on the Growth of Oligotrophic Microorganisms - S. Yu. Egorov, F. G. Kupriyanova-Ashina, and D. I. Nikitin 21 38

Optimization of the Biosynthesis of Endo-1,4-β-Glucanases by the Extremely Thermophilic Bacterium *Anaerocellum thermophilum* - D. F. Tikhomirov, V. V. Stolbova, and A. A. Klesov 24 43

Production of Extracellular Alkaline Phosphate by Antibiotic-Resistant Strains of *Bacillus intermedius* - M. R. Sharipova, N. P. Balaban, and I. B. Leshchinskaya 29 52

Transformation of Pyridinecarboxylic Acids and Their Derivatives by Bacteria - N. S. Zefirov, A. Oyuntsétség, N. F. Piskunkova, L. V. Modyanova, P. B. Terent'ev, G. A. Bulakhov, and N. N. Sveshnikov 33 59

Degradation of Lignin in Natural Substrates by Xylotrophs and Soil Saprotrophs - V. G. Babitskaya and V. V. Shcherba 37 65

Effect of Marine Environmental Factors on the Growth Rate and Respiratory Activity of Bacteria Utilizing Hydrophobic Substrate - T. V. Koronelli and E. D. Nesterova 42 73

Poly-β-Hydroxybutyrate Content in Cells of Various *Rhizobium* Species During Growth with Different Carbon and Nitrogen Sources - G. A. Bonartseva, V. L. Myshkina, and E. D. Zagreba 45 78

Occurrence of Fragments Homologous to cDNA of Chick Pro-α1(I) Collagen in Genomes of Microorganisms - M. V. Nurminskaya, T. S. Kalebina, M. A. Roitberg, and I. S. Kulaev 49 86

Aerobic Coccobacilli Isolated from the Soil of Oil-Bearing Regions - G. N. Morshchakova, M. B. Bitteeva, V. S. Tyurin, L. N. Kapotina, A. M. Lysenko, D. I. Nikitin, and B. G. Murzakov 52 90

Microbiological Processes of Carbon Cycle in Shallow-Water Hydrotherms of the Western Part of the Pacific Ocean - B. B. Namsaraev, E. A. Bonch-Osmolovskaya, M. L. Miroshnichenko, E. V. Pikuta, V. I. Kachalkin, Yu. M. Miller, L. N. Propp, and V. G. Tarasov 59 100

Methanogenesis in Fish Hatchery Ponds and Its Role in Organic Matter Decomposition - P. V. Mikheev, B. B. Namsaraev, I. A. Borzenkov, and V. M. Gorlenko 66 112

Methods for Preservation of Alkane-Utilizing *Rhodococcus* spp. Expedient for Culture Collection Practice - I. B. Ivshina, T. N. Kamenskikh, M. S. Kuyukina, M. I. Rychkova, O. A. Shadrin, L. V. Rybalka, L. V. Zvereva, and O. B. Chumakov ... 69 118

Microbiological Method for the Cleanup of Soil Contaminated with Propanil and 3,4-Dichloroaniline - G. K. Vasil'eva, É. G. Surovtseva, and V. V. Belousov 75 129
Ability of Microbial Biomass to Sorb Radionuclides - M. P. Khovrychev, I. Yu. Mareev, and V. F. Pomytkin 83 145
A New Ring-Forming Bacterium *Arcocella aquatica* gen. et sp. nov. - D. I. Nikitin, M. S. Oranskaya, I. A. Pitryuk, N. A. Chernykh, and A. M. Lysenko 87 152

Volume 63, Number 2, March-April, 1994

EXPERIMENTAL
Thiosulfate Metabolism in the Aerobic Bacteriochlorophyll-α-Containing Bacteria *Erythromicrobium hydroliticum* and *Roseococcus thiosulfatophilus* - V. V. Yurkov, E. N. Krasil'nikova, and V. M. Gorlenko 91 181
Effect of Pyrophosphate on Growth and Metabolism of *Methylomonas methanica* - V. N. Khmelenina, A. P. Beschastnyi, R. R. Gayazov, and Yu. A. Trotsenko 95 189
Dynamics of Survival and Transition to Dormant State of Nitrogen-Starving Bacteria *Pseudomonas fluorescens* - N. V. Evdokimova, A. G. Dorofeev, and N. S. Panikov 99 195
UV-Induced Alteration in the Ratio of Individual Eicosapolyenoic Acids in the Lipid Composition of the Fungus *Pythium*, Strain 39 - L. A. Galanina and E. V. Agapova 105 205
Accumulation of Polyhydroxybutyrate by the Aerobic Co-Oxidizing Bacterium *Seliberia carboxydohydrogena* - T. G. Volova, G. S. Kalacheva, and V. M. Konstantinova 109 211
Occurrence of Xylanse Activity Among Basidiomycetous Yeasts - A. A. Shubakov, O. N. Okunev, V. I. Golubev, and N. I. Mikhaleva 113 217
Nitrogenase Activity of Rhizosphere Nitrogen-Fixing Bacteria in Pure and Mixed Cultures - O. B. Glagoleva, M. M. Umarov, and A. K. Zlotnikov 116 221
Capsular Polysaccharides of Marine Bacteria of the Genus *Alteromonas* - E. P. Ivanova, R. P. Gorshkova, V. V. Mikhailov, E. L. Nazarenko, V. A. Zubkov, E. A. Kirprianova, G. F. Levanova, A. D. Garagulya, E. A. Kelesova, and N. M. Gorshkova 120 228
A New Thermophilic Strain of *Bacillus coagulans* Producing Site-Specific Endonuclease *Bco*KI - N. P. Kovalevskaya, L. A. Zheleznaya, N. V. Zelinskaya, and N. I. Matvienko 124 235
Agrobacterium radiobacter Mutants with Altered Capacity for Nitrogen Fixation and Interaction with Plants - V. D. Frolova, E. M. Muronets, T. N. Mitronova, N. V. Belavina, S. V. Kameneva, and S. V. Shestakov 127 239
Selection of a *Thiobacillus ferrooxidans* Strain Highly Resistant to Zinc Ions and the Characteristics of Its Chromosomal DNA Studied by Pulsed-Field Gel Electrophoresis - G. I. Karavaiko, T. F. Kondrat'eva, V. P. Piskunov, V. G. Saakyan, L. N. Muntyan, and O. E. Konovalova 132 247
Conjugation between Azospirilla in the Rhizosphere of Barley and in Soil - S. A. Lukin and A. A. Prozorov 137 254
Effect of Non-Ionogenic Surfactant on Cyanobacteria - J. Waterbury and S. A. Ostroumov ... 140 259
Viruses in a Culture of the Fungus *Fusicoccum amygdali* Del. - G. S. Muromtsev, R. A. Maksimova, and I. M. Dadasheva 143 264
Thiothrix arctophila sp. nov. – a New Species of Filamentous Colorless Sulfur Bacteria - N. M. Dul'tseva and G. A. Dubinina 147 271
Taxonomic Revision of Some Nonactin Producers by Comparative Population Analysis and Revival of the Name *Streptomyces viridovulgaris* (ex Krassilnikov 1970) nom. rev. - V. D. Kuznetsov and S. N. Filippova 154 282

	Engl.	Russ.
Differentiation of Soil Microbial Communities by Multisubstrate Testing - M. V. Gorlenko and P. A. Kozhevin	158	289
Successions of Actinomycetes in Chernozem and Overlapping of Their Ecological Niches - T. L. Babich, G. M. Zenova, and P. A. Kozhevin	162	294
Kinetics and Strategy of Microbial Growth in Chernozemic Soil Affected by Different Long-Term Fertilization - S. A. Blagodatsky, E. V. Blagodatskaya, and L. N. Rozanova	165	298
Influence of Nitrogen on Microbial Colonization of the Barley Rhizosphere - L. M. Polyanskaya, M. Kh. Orazova, A. A. Sveshnikova, and D. G. Zvyagintsev	171	308
Dynamics of the Microbial Abundance and the Composition of the Microbial Complex in the Rhizosphere and Rhizoplane of Pea - L. M. Polyanskaya, M. Kh. Orazova, T. G. Mirchink, and D. G. Zvyagintsev	175	314
The Effect of Inoculating with Pseudomonades on the Nitrogen Cycle in the Rhizosphere of Non-Legumes - M. M. Umarov, G. R. Burlutskaya, O. G. Davidovich, and N. G. Matveeva	183	326
Bacterial Communities of the Kyzyl Kum Desert: Spatial Distribution and Taxonomic Composition - T. G. Dobrovol'skaya, I. Yu. Chernov, L. V. Lysak, G. M. Zenova, T. A. Gracheva, and D. G. Zvyagintsev	188	334
Bacterial Synthesis and Destruction of Organic Matter in Microbial Mats of Lake Baikal - B. B. Namsaraev, L. E. Dulov, G. A. Dubinina, T. I. Zemskaya, L. Z. Granina, and E. V. Karabanov	193	345
Microbial Processes of the Carbon and Sulfur Cycles in Bottom Sediments of the Congo River Discharge Zone - N. V. Pimenov, I. A. Davydova, I. I. Rusanov, A. Yu. Lein, S. S. Belyaev, and M. V. Ivanov	198	353
Dark Oxidation of Reduced Sulfur Compounds in Kraternaya Bay - D. Yu. Sorokin	207	370
Quantitative Estimation of Specific Growth Rate and Active Biomass of Bacterioplankton - A. Yu. Gorbenko and T. S. Maslennikova	210	375
BRIEF COMMUNICATIONS		
Hydrophilic-Hydrophobic and Adhesive Properties of *Rhodococcus rubropertinctus* Dissociants - E. S. Mil'ko and N. S. Egorov	214	382

Volume 63, Number 3, May-June, 1994

REVIEWS		
Response of Microbial Community of Tundra Soil to Global Warming: Simulation of Seasonal and Long-Term Population Dynamics - N. S. Panikov	217	389
EXPERIMENTAL		
Glucose Effect in the Regulation of Glucose Transport in *Rhodococcus minimus* - L. M. Baryshnikova, N. A. Chemeris, and E. L. Golovlev	226	405
Transport of Alkaloid Roquefortine into Cells of the Fungus *Penicillium farinosum* - T. A. Reshetilova, T. V. Kulakovskaya, T. N. Kuvichkina, and A. G. Kozlovskii	230	411
Localization of Cyanide-Resistant Oxidase in Mitochondria of the Yeast *Yarrowia lipolytica* - A. G. Medentsev and V. K. Akimenko	233	417
Effect of Glucose and Amino Acids on Oligotrophic Bacteria - N. E. Klimova and D. I. Nikitin	237	424
Effect of Antiseptics and Redox-Cycling Agents on *Corynebacterium ammoniagenes* and Related Microorganisms in Connection with Biosynthesis of a New Macroergic Compound - D. N. Ostrovskii, K. Sh. Dosanov, A. N. Kalyuk, O. D. Ogrel', L. A. Sibel'dina, E. F. Kharat'yan, I. N. Shipanova, and A. N. Sharov	241	431

Possible Pathways of Ethanol Oxidation in *Candida lipolytica* - A. P. Il'chenko, E. A. Fausek, I. G. Morgunov, N. V. Shishkanova, and T. V. Finogenova 245 439
Effect of the Oversynthesis of the Products of Cloned Genes on Methanol Metabolism in Recombinant Methylotrophic Yeast *Hansenula polymorpha* - N. V. Gorlatova and E. G. Kryukova 251 450
Influence of Thiosulfate on the Growth of Sulfate-Producing Sulfur-Oxidizing Heterotrophic Bacteria from the Black Sea in Continuous Culture - D. Yu. Sorokin 255 457
Enzymatic and Non-Enzymatic Lipid Peroxidation in Cell-Free Extract of the Luminescent Bacterium *Vibrio harveyi* - A. D. Ismailov, L. V. Beriya, and V. S. Danilov 260 466
Transformation of Kimberlites by Autotrophic Bacteria - N. P. Platonova, G. I. Karavaiko, E. V. Lebedeva, and P. Yu. Zherdev 264 473
Effect of RNase on Survival and Symbiotic Ability of *Rhizobium meliloti* in Soil - S. Yu. Egorov, N. G. Zakharova, E. S. Naumova, and F. G. Kupriyanova-Ashina 269 484
Mechanism of Specific Chromogenic Reaction of *Klebsiella* spp. during Growth on Nutrient Medium with 5-Aminosalicylic Acid - E. P. Sivolodskii, N. V. Rovnov, and L. N. Petrov 272 489
Lipoteichoic Acids of *Agromyces* Species - V. A. Gnilozub, G. M. Streshinskaya, L. I. Evtushenko, A. S. Shashkov, and I. B. Naumova 275 495
The Lysosomal System of Yeast Cells During Normal Development and Upon Activation of Lytic Processes - V. I. Biryuzova, G. A. Medvedeva, and N. A. Pomoshnikova 280 503
Cell Ultrastructure of Some Species of the Genus *Bifidobacterium* - G. I. Novik, V. V. Vysotskii, and Zh. N. Bogdanovskaya 288 515
A New Thermophilic Anaerobic Carboxydotrophic Bacterium *Carboxydothermus restrictus* sp. nov. - V. A. Svetlichnyi, T. G. Sokolova, N. A. Kostrikina, and A. M. Lysenko 294 523
Methylophilus leisingerii sp. nov., a New Species of Restricted Facultatively Methylotrophic Bacteria - N. V. Doronina and Yu. A. Trotsenko 298 529
Identification of *Pseudomonas mallei* Bacteria with the Help of *Pseudomonas pseudomallei* Bacteriophages - O. Yu. Manzenyuk, N. V. Volozhantsev, and E. A. Svetoch 303 537
Interactions Among Methanotrophs - N. G. Starostina, N. L. Pashkova, N. B. Gorkina, and A. B. Tsiomenko 308 545
Actinomycetes of the Genus *Micromonospora* in Terrestrial Ecosystems - G. M. Zenova, T. A. Gracheva, and A. A. Likhacheva 313 553

Volume 63, Number 4, July-August, 1994

EXPERIMENTAL

Prolonged Catabolite Repression and the Problem of Microorganism Introduction into Soil - V. S. Guzev and P. N. Golyshin 319 565
Carbon Metabolism in *Sulfobacillus thermosulfidooxidans* - L. M. Zakharchuk, I. A. Tsaplina, E. N. Krasil'nikova, T. I. Bogdanova, and G. I. Karavaiko 324 573
Response of *Pseudomonas fluorescens* to a Change in Medium Acidity: the Effects of Pregrowing Conditions - A. G. Dorofeev 329 581
The Effect of Medium Composition on the Growth of *Xanthobacter autotrophicus* on Ethanol in Homogeneous Batch Culture - V. G. Arzumanyan, Z. V. Sakharova, and N. S. Panikov 333 589
Osmostabilization of the Cells of Halobacteria and Preparation of Their Dry Biomass Free of Salts - V. K. Plakunov and M. V. Kokoeva 338 597
The Effect of "Acidic Shock" on Viability of Cells and Activity of Tyrosine Transport Systems in *Halobacterium salinarium* - M. V. Kokoeva and V. K. Plakunov 341 603

	Engl.	Russ.
Alkaloid Production by *Penicillium palitans* Westling in Submerged and Surface Cultivation - T. A. Reshetilova, N. G. Vinokurova, S. M. Konovalova, and A. G. Kozlovskii	344	609
The Effect of the Ratio of Zn^{2+} and Fe^{2+} Ions on the Excretion and Activity of NAD-Dependent Alcohol and Aldehyde Dehydrogenases in *Torulopsis candida* Yeast Cultivated on Ethanol-Containing Medium - A. P. Il'chenko, N. N. Vasil'kova, N. V. Shishkanova, and T. V. Finogenova	348	615
Composition of Acyl-Containing Lipids in *Mucor lusitanicus* Cell Fractions under Different Nitrogen Nutrition Regimes - I. S. Mysyakina and N. S. Funtikova	353	624
Reactivation of *Escherichia coli* Cells Inactivated by Ultraviolet Rays, with Cell Extracts of Propionic Acid Bacteria: Fractionation of the Extract - L. I. Vorob'eva, E. Yu. Khodzhaev, G. M. Ponomareva, and I. V. Ambrosov	357	630
Intra- and Intergeneric Activity Spectrum of *Pichia punctispora* (Mellard 1910) Dekker 1931 Mycocins - V. I. Golubev and V. M. Blagodat-skaya	361	637
Morphology and Ultrastructure of Cyanobacterium *Synechococcus elongatus* Grown in Associations with Plant Cells - O. I. Baulina, I. B. Yagodina, T. G. Korzhenevskaya, and M. V. Gusev	365	643
Regulation of Microbial Processes in the Rumen by Bacteriophages of *Streptococcus bovis* - B. V. Tarakanov	373	657
Sulfurococcus yellowstonii sp. nov., a New Species of Iron- and Sulfur-Oxidizing Thermoacidophilic Archaebacteria - G. I. Karavaiko, O. V. Golyshina, A. V. Troitskii, K. M. Valieho-Roman, R. S. Golovacheva, and T. A. Pivovarova	379	668
Sulfate Reduction, Methane Production, and Methane Oxidation in Various Water Bodies of Banger Hills Oasis of Antarctica - V. F. Gal'chenko	388	683
Species Composition of Micromycetes of Alder Actinorhizal Nodules - G. A. Kochkina, N. E. Ivanushkina, O. S. Pavlova, and L. M. Polyanskaya	397	699
Heterogeneity of Root as a Microbial Habitat - M. Kh. Orazova, L. M. Polyanskaya, and D. G. Zvyagintsev	401	706
Sensitivity of Yeasts to Digestive Fluid in the Gut of Soil Diplopods *Pachyiulus flavipes* C. L. Koch - Vu Nguyen Thanh, B. A. Byzov, and I. P. Bab'eva	406	715
Bacterial Communities of Solonchaks - L. V. Lysak, D. B. Troshin, and I. Yu. Chernov	410	721
Microbial Processes of Carbon and Sulfur Cycles in Bottom Sediments of Lake Michigan - B. B. Namsaraev, V. A. Samarkin, K. H. Nealson, J. V. Klump, L. Buchholz, C. Remsen, and C. Myers	415	730

Volume 63, Number 5, September-October, 1994

REVIEWS

Biochemical Adaptation of Mycelial Fungi to Temperature Stress - E. P. Feofilova	421	757

EXPERIMENTAL

Effect of Molecular Hydrogen and Elemental Sulfur on Metabolism of Extremely Thermophilic Archaebacteria of the Genus *Thermococcus* - E. A. Bonch-Osmolovskaya and M. L. Miroshnichenko	433	777
Utilization of Sugars and Amino Acids by Extremely Thermophilic Anaerobic Archaebacterium *Desulfurococcus amylolyticus* - I. A. Usenko	437	783
Change in Carbohydrate Composition of Fungi During Adaptation to Thermostress - E. P. Feofilova, V. M. Tereshina, and I. B. Gornova	442	792
Mass-Balance Method for Determination of the Intracellular Pool of Respiratory Substrates - A. G. Dorofeev and N. S. Panikov	446	799
Growth and Sporulation of *Bacillus subtilis* in Batch and Dialysis Cultures. Experiment and Simulation - N. V. Evdokimova and N. S. Panikov	454	812

	Engl.	Russ.
Fatty Acid Composition of Lipids in Thermoacidophilic Bacteria of the Genus *Sulfobacillus* - I. A. Tsaplina, G. A. Osipov, T. I. Bogdanova, T. P. Nedorezova, and G. I. Karavaiko	459	821
Characteristics of *Pseudomonas fluorescens* Lipopolysaccharide - S. N. Veremeichenko and G. M. Zdorovenko	465	831
Separation of Exopolysaccharides Synthesized by *Acinetobacter* sp. into Acylated and Nonacylated Components - T. P. Pirog, T. A. Grinberg, G. É. Pinchuk, S. N. Senchenkova, and Yu. R. Malashenko	470	840
Distribution of α-N-Acetylgalactosaminase Among Marine and Fresh-Water Microorganisms - I. Yu. Bakunina, E. P. Ivanova, V. V. Mikhailov, O. I. Nedashkovskaya, N. M. Gorshkova, and V. V. Parfenova	474	847
Destruction of Various Lignins by Actinomycetes of the Genus *Actinomyces flavescens* - É. I. Kolomiets, T. V. Romanovskaya, N. A. Zdor, B. Yu. Vadetskii, and G. M. Zaitsev	477	854
Cellular and Cultural Properties and Characterization of the Pigment in *Nostoc* sp., a Cyanobacterium Unusually Rich in c-Phycoerythrin - A. V. Pinevich, A. A. Vepritskii, B. V. Gromov, K. Krautval'd, and N. N. Titova	481	860
Properties of Purple Nonsulfur Bacterium from Ancient Frozen Rocks of the Kolyma Lowland - E. N. Burashnikova and I. N. Gogotov	486	868
Study of Species Composition of Microbial Community of Water-Flooded Oil Field by Chromato-Mass Spectrometry - G. A. Osipov, T. N. Nazina, and A. E. Ivanova	490	876
Microbiology of the Carbon Turnover in the Atlantic Waters at the Congo River Estuary - N. V. Pimenov, I. A. Davydova, I. I. Rusanov, S. S. Belyaev, and M. V. Ivanov	494	883
Microbiology of Carbon Cycling in the Black Sea Methane Seep Region - I. I. Rusanov, V. F. Galchenko, N. V. Pimenov, and M. V. Ivanov	499	890
Cellulase Activity in Peat Bog Soil at Different Temperatures - D. V. Nizovtseva, A. M. Semenov, and N. S. Panikov	503	896
Effectiveness of Barley Inoculation with Root Diazotrophic Bacteria and Their Survival Depending on Soil Temperature and Moisture - A. A. Belimov, S. M. Postavskaya, O. F. Khamova, A. P. Kozhemyakov, A. M. Kunakova, and E. V. Gruzdeva	506	900
Specific Features of Micromycete Complexes of the Rhizosphere and Nodules of Actinorhizal Plants - N. E. Ivanushkina, G. A. Kochkina, O. S. Stupar', O. S. Pavlova, and L. M. Polyanskaya	511	909
Taxonomic Structure of Hydrocarbon-Oxidizing Bacteriocenoses of Aquatic Ecosystems in Different Climatic Zones - T. V. Koronelli, S. G. Dermicheva, V. V. Il'inskii, T. I. Komarova, and O. V. Porshneva	516	917
Rapid Radionuclide Determination of Activity of Microoganisms in Natural Water - V. V. Il'inskii and M. N. Semenenko	520	924
Selection and Cultivation of Cellulose- and Lignin-Degrading Fungi - Z. R. Akhmedova, O. P. Beletskaya, G. N. Dalimova, M. M. Khalikova, M. N. Azimkhodzhaeva, K. D. Davranov, and A. Sharipova	523	929
BRIEF COMMUNICATIONS		
Guanine-Plus-Cytosine DNA Content of Psychrophilic Methanotroph and Its DNA - DNA Hybridization with Methanotrophs of Type I - A. M. Lysenko, M. V. Omel'chenko, and L. V. Vasil'eva	528	937
Some Specific Features of Marine Gram-Negative Agar-Digesting Bacteria - L. A. Romanenko, E. P. Ivanova, A. M. Lysenko, and V. V. Mikhailov	530	940

Engl./Russ.

Volume 63, Number 6, November-December, 1994

REVIEWS

Use of Microorganisms in Protection of Environments from Pollution by Sulfur Compounds - D. Yu. Sorokin 533 949

EXPERIMENTAL

The Effect of Light and Ammonium on the Activity of Glutamine Synthetase in the Purple Sulfur Bacterium *Thiocapsa roseopersicina* - É-A. A. Khatipov and R. N. Ivanovskii 548 973

Growth and Formation of Metabolic Products by Extremely Thermophilic Archaea of the Genus *Desulfurococcus* in the Presence and Absence of Elemental Sulfur - A. I. Slobodkin and E. A. Bonch-Osmolovskaya 552 981

Biosynthesis of Extracellular Ribonuclease in *Bacillus pumilus* - L. V. Znamenskaya, V. L. Ivailovskii, E. I. Ivanova, S. I. Krasnov, and I. B. Leshchinskaya 555 986

Synthesis of Hydrocarbons by Sulfate Reducing Bacteria under Chemolithoheterotrophic Conditions - T. V. Bagaeva and L. M. Zolotukhina 559 993

Formation of Alkaloids in Fungi of the Genus *Penicillium* Link in Combined Cultivation - T. A. Reshetilova, T. N. Kuvichkina, T. F. Solov'eva, and A. G. Kozlovskii 561 996

Enzyme Activity of Xylotrophic Basidiomycetes and Products of Lignocellulose Substrate Decomposition at Morphogenetic Stage of Fungus Development - I. A. Reshetnikova and V. V. Elkin 564 1002

Study of Lipid Synthesis and Biomass Composition of a Constitutive Lipid Producer *Debaryomyces globosus* under Conditions of Continuous Cultivation - E. G. Dedyukhina, S. V. Kamzolova, and V. K. Eroshin 567 1007

Change in Composition and Properties of Exopolysaccharides Synthesized by *Acinetobacter* sp. During Batch Cultivation - T. A. Grinberg, T. P. Pirog, G. É. Pinchuk, V. N. Buklova, and Yu. R. Malashenko 572 1015

Properties of Polysaccharide Complexes Produced by *Azospirillum brasilense* and Polysaccharides Isolated from Them - S. A. Konnova, I. M. Skvortsov, O. E. Makarov, and V. V. Ignatov 575 1020

The Effect of the Nutrient Medium Composition on Synthesis of Extracellular Polysaccharide by *Aureobasidium pullulans* - N. A. Yurlova, A. I. Kirii, and O. A. Kudryashova 582 1031

Characteristics of Fluorescent Pigment Pyoverdin P_m Produced by *Pseudomonas putida* Bacteria - N. P. Maksimova, O. V. Blazhevich, V. V. Lysak, and Yu. K. Fomichev 587 1038

The Effect of Wood-Destroying Fungi on Birch Wood Lignocarbon Complex at Different Values of pH in the Medium - I. A. Reshetnikova and V. V. Elkin 591 1045

Biotransformation of Ethanol to Acetaldehyde by Wild and Mutant Strains of Methylotrophic Yeast *Hansenula polymorpha* - O. M. Moroz, G. P. Ksheminskaya, and A. A. Sibirnyi 594 1050

Morphological Heterogeneity and Characteristic Features of the Life Cycle in the Yeast *Pachysolen tannophilus* - E. N. Yablochkova, M. V. Shabalina, T. E. Ogorodnikova, N. P. Mikhailova, and O. I. Shapovalov 599 1058

The Effect of Fragmentation of the Mycelium of Various Yeast Species on Its Viability - O. E. Marfenina, A. E. Ivanova, and D. G. Zvyagintsev 603 1065

Isolation and Identification of *Pseudomonas nautica*, a Heterotrophic Satellite of *Microcoleus chthonoplastes* Cyanobacteria - V. V. Kevbrin, N. A. Kostrikina, and A. M. Lysenko 607 1072

A New Species of Brown Agar-Digesting Bacteria of the Genus *Alteromonas* - L. A. Romanenko, A. M. Lysenko, V. V. Mikhailov, and A. V. Kurika 613 1081

Biogeochemistry of Hydrothermal Ecosystems of the Manus and Lau Basins - A. Yu. Lein, N. V. Pimenov, V. F. Gal'chenko, and M. V. Ivanov 617 1088

Engl./Russ.

Microscopic Fungi of Soil, Rhizosphere and Rhizoplane of Cotton Plant and Tropical Grasses Introduced in the South of Tadzhikistan - A. V. Kurakov, Ha Thi Hong Than, and I. S. Belyuchenko 624 1101

Express Method for Determining the Lycopene and β-Carotene Content - V. M. Tereshina, A. S. Memorskaya, and E. P. Feofilova 630 1111
